

REMaT

First ReMaT Workshop in Zagreb

5th and 6th November 2007

It was only during the workshop that I have realised how much research management is important. I have never had this kind of training.

Nives Skunca, PhD candidate in Zagreb, Croatia

There was a good atmosphere in the workshop, the lecturers were really professional (by their experience, knowledge and the way of presenting things).

Meri Kokkonen, PhD candidate, Finland

An insight on the world outside the ivory tower of pure research.

Benno Kreuels, PhD candidate in Hamburg, Germany

ReMaT-workshop in Toulouse Ecole Doctorale Biologie – Santé – Biotechnologies de Toulouse

5th and 6th February 2008

I learned a lot about management. This overview was really important for my future career because I have realised all the options we have after the PhD and the importance of the notion behind the management.

Marilena Djata Cabral, PhD candidate in Toulouse, France

As PhD students we need to think about our future and ReMaT gives us some important issues that we need to take into account to achieve our goals as researchers.

Maria Isabel Osorio Garcia, PhD candidate in Leuven, Belgium

ReMaT Workshop Budapest

14th and 15th April 2008

It will be important for my future career because I understand more how to manage and fund research and how to manage and innovate my ideas at the future.

Nafija Serdarevic

I feel that through ReMat I am aware of forthcoming challenges in the future. A look ahead on advice in advance.

Nora Mzavanadze

Stockholm Karolinska Institute

9th and 10th June 2008

Is very important to get a perspectives view of your future research career development.

Anca Croitor

Hamburg TuTech Innovation GmbH

2nd and 3rd December 2008

I really enjoyed the workshop. I would recommend it to other people.

Elena Jiménez

Thank you soo much. Now I have a much better view on the future and do not fear that time after PhD. Great Workshop.

Mareike Chrobak
