Workshop announcement TUTECH 2018

Business Contracts in English

Workshop

Thursday, 21 June 2018 & Friday 22 June 2018, 9:00-17:00

Content and aim of the workshop

This seminar is designed to assist the professional in understanding the basic principles behind the modern use of so-called 'boilerplate' clauses in international contracts. It is structured in the form of a series of 'case studies' taken from the business world to allow a maximum of 'hands on' experience in using the language. The seminar starts off with an analysis of the basic steps in contract formation and discusses the individual types of boilerplates used. Participants will be provided with examples of model boilerplates.

Target group

The workshop is designed for those who are involved in international contracts in their company or institution.

Workshop Presenter

Stuart Bugg, B.A., LL.B (Hons), M.Jur (Dist) was born in Kingston-upon-Hull, England. Stuart is a Solicitor (England and Wales) and a Barrister (New Zealand). He now practices law in Nuremberg, Germany with German colleagues.

For registration and terms & conditions see last page.

Workshop announcement TUTECH 2018

Advanced Business Contracts in English

Workshop

Thursday, 13. September 2018 & Friday, 14 September 2018, 9:00-17:00

Content and Aim of the Workshop

For those with a basic understanding of how Common Law contracts and agreements are set up, applied and interpreted in English, this seminar is designed to develop their skills and knowledge further. The workshop will deal with the principles of "boilerplates" and standard types of contract clauses along with issues of liability. It will look at the purpose behind the typical boilerplate clauses as well as the preferred formulations and, where relevant, discuss the relevance of the Common Law clauses in the German/Civil Law context.

Target group

The workshop is designed for those who are involved in international contracts in their company or institution.

Workshop Presenter

Stuart Bugg, B.A., LL.B (Hons), M.Jur (Dist) was born in Kingston-upon-Hull, England. Stuart is a Solicitor (England and Wales) and a Barrister (New Zealand). He now practices law in Nuremberg, Germany with German colleagues.

Addressing 'Impact' in Research Proposals

Workshop

Wednesday, 14 November 2018, 9:00-16:30

Content and aim of the workshop

The expected impact of a proposed research project becomes more and more essential in many grant applications. In order to be successful with their proposal applicants need to analyze and describe the impact of their work convincingly. This workshop aims to give an understanding of the concept of impact and measures to use in order to maximize it. Workshop participants are encouraged to bring their own research project ideas for discussion during the workshop.

Target group

The workshop is designed for researchers intending to apply for public funding, but may also be useful for funding advisors who need to know about the practical side to proposal preparation.

Workshop Presenter

Monica Schofield, CEng FIET, Director International Cooperation and EU Office. Since 1999 Monica has been giving professional advice on the preparation of proposals for European funding, for both researchers and enterprises. Since 1995 she has given well over 100 workshops on research and innovation management and research policy across Europe.

For registration and terms & conditions see last page.

How to develop a strategic plan for funding your research

Workshop

Thursday, 27 November 2018, 9:00-16:30

Content and aim of the workshop

This workshop explores the concept of strategy in the research context. Having a clear idea of your research direction facilitates aligning even small projects to larger goals, making individual proposals more compelling. It will also help to avoid the trap of letting funding dictate your research focus which leads to a fragmented track record. The goal of the workshop is to provide guidance on how to approach the development of a strategic funding plan in the individual research setting. Participants will learn how to apply key elements of strategy to develop their research agenda, identify a portfolio of funding opportunities to be pursued in the coming years and manage the grant life cycle systematically to build the resources and capabilities necessary to deliver long-term sustainable research.

Target group

This workshop is designed for postdoctoral researchers who intend to consolidate their research career.

Workshop presenter

Dr. Thomas Koch, offers expert training and consultancy services for research management in international higher education. Since 2008 he has also been working as an independent expert and consultant, e.g. for the European Commission, the European University Association and the Helmholtz Association.

For registration and terms & conditions see last page.

ReMaT - research management training for early-career researchers

Workshop

Monday, 10 December & Tuesday, 11 December 2018, 9:00-16:00

Content and aim of the workshop

Responding to the ever increasing demand for complementary skills training for those starting their research career, ReMaT is an intensive two-day workshop comprising of five modules which introduces students to research management topics and skills now considered essential for a career in research, or to make the transition from research into other functions. The modules cover: contexts of modern research and career perspectives; project management; intellectual property rights; grant acquisition, and exploitation and commercialisation of research. Implicit in the workshop is skills development in social interaction and networking.

Target group

ReMaT is especially tailored to meet the needs of early-stage researchers especially from the 2nd year of PhD studies onwards, but is also suitable for others involved in research, or in directing research.

Workshop Presenter

Monica Schofield, CEng FIET, Director International Cooperation and EU Office at Tutech
Since 1999 Monica has been giving professional advice on the preparation of proposals for European funding, for both researchers and enterprises. Since 1995 she has given well over 100 workshops on research and innovation management and research policy across Europe.

Dr Margarete Remmert-Rieper, PhD in chemistry, Senior Consultant at Tutech
Since 2006 Margarete has been responsible for for the business development of research and innovation related training programmes. Margarete has extensive experience as a trainer and in European projects aimed at improving collaboration between universities, business and government. For registration and terms & conditions see last page.
